

GSPA

UNCOVER OUR SECRET OF WELLNESS
G SPA, an experience that makes you sparkle inside out

A BELIEF ETCHED IN OUR HEARTS

At G SPA, we are all united over a strong inner belief that tomorrow would definitely be better once we engage in a journey of self-discovery. We are confident that once the transformation starts from within, it will then reach our close community and world around. This is what you will enjoy and live during your experience at G SPA.

Together, G SPA, G FIT, G STYLE and G MED would definitely transport you to this level of wellbeing and internal peace.

THE ROOTS

The G SPA brand tells stories of love and healing. The 'G' is an emphasis on the family & home dimension. G SPA was founded on 2008 with a global view to now reach a family that has exceeded a hundred of professionals in different areas and thousands of mind-alike clients who regularly visit G SPA and express that this place is like home to them. Our specialists are all experts in their respective fields, they all have a deep understanding of the individualized needs of well-being.

They all have a self-satisfaction for making people happy.

The word 'SPA' stands for 'SANITAS PER AQUA' meaning health through water representing our indoor pool, our variety of treatments that are based on aqua therapy, and our striking exclusively French designed water fountain right in the middle of our premises.

Truly water to us is a major element of life, vitality renewal and purification.

Once you step into G SPA you will be welcomed right into our family and the healing begins.

BEHIND THE WALLS

G SPA is a story of love, development and transformation. The G SPA concept, as it is today slowly came to life in 2005 when our founders came together to develop *"Institut Le Gabriel"* into a full fledged spa experience.

We at G SPA are proud to be playing a role in setting a strong foundation for a wellness and fitness community in Lebanon. G SPA is the first spa of its kind to offer a complete wellness experience that focuses on body, mind and spirit with a focus on health and beauty.

The vision of G SPA is clear to *help transform individuals from within, to educate them about their wellbeing and to guide them to bettering themselves for a phenomenal future.*
